WE'RE COMMITTED TO THE CONSERVATION OF WATER RESOURCES

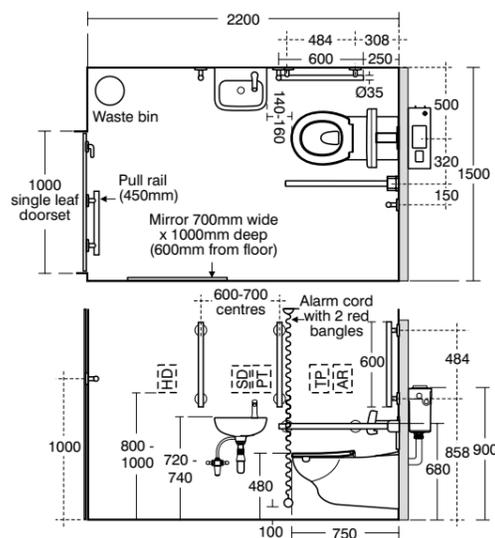

FOR OVER 40 YEARS IDEAL STANDARD HAVE BEEN AT THE FOREFRONT OF DEVELOPMENT WITH GROUND BREAKING WATER EFFICIENT TECHNOLOGIES.

We believe it makes good environmental and financial sense to use water efficiently, maximising its benefit and minimising its wastage.

Our designers and engineers have produced a collection of 500 products whose water saving credentials are matched by their style and performance and approved by the European Water Labelling Scheme.

INDEPENDENTLY TESTED

European Water Label Scheme

Ideal Standard have been staunch supporters of this scheme since its inception. We balance customer expectation with the requirements of the scheme and list product where it's appropriate. All fitted flow limiters are removable. We also supply low pressure stream straighteners with all fittings so that performance is assured where lower pressure systems are fitted.

Water Regulations Advisory Scheme

Ideal Standard are fully committed to WRAS and submit all products for testing and listing where commercially justifiable. New product is submitted as part of the development process.
